

BUSINESS ADMINISTRATION - FINANCE CONCENTRATION, B.S.

The Finance Concentration is designed to prepare students with the required foundational knowledge for diverse career paths in the financial services industry. According to the U.S. Bureau of Labor Statistics, the overall employment in business and financial occupations is projected to grow 7% from 2021 until 2031, resulting in an increase in about 715,000 new jobs. Additionally, 980,200 jobs are expected to be created through attrition (2021). Possible career opportunities include corporate and public finance, investment banking, commercial banking, mutual funds, portfolio management, venture capital, trading, personal finance banking, and regulatory agencies.

Upon completion of the concentration in finance, students will be able to:

- Identify and apply the basic relationship between risk and return and its application in financial asset valuation and investment decisions.
- Conduct financial statement analysis.
- Create financial models to solve real-world business calculations.
- Understand the ethical and legal challenges of business and investment industry.
