

# FINANCE MINOR (FIN)

The Finance minor is designed to provide students with the foundational knowledge of structures and functions in the financial services industry - corporate and public finance, investment management, global markets, and financial modeling.

Students graduating with a minor in Finance will be able to:

- Identify and apply the basic relationship between risk and return and its application in financial asset valuation and investment decisions.
- Conduct financial statement analysis.
- Create financial models to solve real-world business calculations.
- Understand the ethical and legal challenges of business and investment industry.

| Code                         | Title                                       | Hours        |
|------------------------------|---------------------------------------------|--------------|
| ACCT 224                     | Financial Accounting                        | 3            |
| ACCT 225                     | Managerial Accounting                       | 3            |
| BADM 110                     | Information Technology for Business         | 3            |
