

# PSYCHOLOGY, B.A.

The Psychology B.A. provides the foundation for careers in human services and counseling, in business and industry, and in working with children, adolescents and adults in schools or clinical settings. The program also prepares students for graduate study in all areas of psychology, social work, business, education, and other related professions. Students study principles of human growth and development and the processes of learning, cognition, and emotion. Particular attention is given to knowledge related to personality development, social diversity and group interactions, and the biological bases of behavior.
